

PANACHE

INTERNATIONAL EDUCATION ADVISORY

FOR SCHOOLS & INSTITUTIONS

AI, Digital Transformation & Education Technology Advisory

Empowering educators. Strengthening schools. Shaping the future of learning.

More Than Advice. A Panache Experience.

WHO WE ARE

More Than Technology Consulting.

Panache supports schools and institutions as they navigate technological change, artificial intelligence and the evolving future of learning.

Technology is the tool.
Education is the purpose.

01 Educational expertise

Grounded in teaching and learning

02 Technology strategy

Aligned with institutional priorities

03 AI integration

Responsible, useful and age-appropriate

04 Professional learning

Building capability across teams

05 Institutional transformation

Moving from projects to culture

THE CHALLENGE

Schools have more
technology than ever.
But is it creating
better learning?

Technology is moving fast

- Generative AI
- New EdTech platforms
- Automation
- Data & analytics
- Emerging learning technologies

Schools are asking

- What should we adopt?
- How do we prepare teachers?
- How do we protect data?
- How should AI change assessment?
- How do we measure impact?

The challenge is no longer access to technology.
It is making the right decisions about technology.

OUR PHILOSOPHY

Technology with Purpose. Learning with Impact.

Meaningful digital transformation begins with educational purpose; not with tools.

Supports Learning

rather than distracting from it.

Empowers Educators

rather than replacing professional judgement.

Strengthens Institutions

rather than creating fragmented systems.

Prepares Students

for an increasingly AI-enabled world.

Pedagogy first. Technology second. Impact always.

AREAS OF EXPERTISE

One partner.
Multiple dimensions
of transformation.

01 AI Strategy & Governance

Responsible AI frameworks, policies and institutional strategy.

02 Teacher Digital & AI Literacy

Building educator confidence, capability and responsible AI practice.

03 Education Technology Integration

Selecting and integrating technology around pedagogical needs.

04 STEM, Coding & Robotics

Developing future-ready STEM and computational learning pathways.

05 Digital Curriculum Design

Embedding digital competency, AI literacy and technology across the curriculum.

06 International Accreditation Support

Structured support for CIS, MSA and continuous school improvement.

START WITH UNDERSTANDING

AI & Digital Readiness Assessment

Before recommending solutions, we first understand the institution.

Leadership readiness

Teacher digital competency

Current AI usage

Student AI practices

EdTech ecosystem

Curriculum integration

Policies & governance

Data privacy and security

PD needs

Institutional culture

PANACHE AI & DIGITAL READINESS REPORT

Current State → Priorities → Risks → Opportunities → Roadmap

You cannot transform what you have not first understood.

OUR ADVISORY MODEL

From Insight to Action.

Transformation is a process; not a technology purchase.

01

ASSESS

Understand the current environment.

02

STRATEGISE

Define priorities and direction.

03

BUILD

Develop frameworks, policies and systems.

04

DEVELOP

Build staff capability.

05

IMPLEMENT

Pilot and scale meaningful practices.

06

MEASURE

Evaluate impact and improve.

AI STRATEGY & RESPONSIBLE AI

Moving from AI experimentation to institutional practice.

Many educators are already using AI.
The question is: does the school have a shared approach?

- AI vision & strategy
- Teacher guidelines
- AI and assessment guidance
- Age-appropriate AI use
- AI tool evaluation criteria
- Governance & human oversight
- Responsible AI policy
- Student acceptable-use frameworks
- Academic integrity frameworks
- Data privacy expectations
- Parent communication

Responsible AI is not about restricting innovation.
It is about enabling it safely and intentionally.

Technology transformation is people transformation.

PANACHE AI ACADEMY

EDUCATORS

- AI literacy
- Lesson planning
- Differentiation
- Assessment & feedback
- Content creation
- Research
- Productivity

FOUNDATION

LEADERS

- AI strategy
- Governance
- Risk
- Change leadership
- Investment decisions
- Measuring impact

PRACTITIONER

ADMINISTRATIVE TEAMS

- Communication
- Documentation
- Data
- Meetings
- Presentations
- Workflow automation

AI LEADER

CURRICULUM & FUTURE-READY LEARNING

Preparing students for
an AI-enabled world.

**Digital
Literacy**

**Digital
Citizenship**

**Computational
Thinking**

**STEM &
Robotics**

**AI
Literacy**

**Responsible
AI Use**

From isolated technology activities to a coherent K–12 learning progression.

Future-ready education is not about teaching students to use more tools.
It is about developing the capabilities to understand, question and create with
technology.

PRIVATE AI FOR SCHOOLS

Your School's Knowledge. Your Secure AI Environment.

Panache can work with technical partners to design private, institution-specific AI solutions built around a school's own knowledge and operational needs.

PRIVATE

Designed around institution-approved infrastructure and data controls.

INSTITUTION-SPECIFIC

Works with the school's own knowledge base.

CONTROLLED ACCESS

Different users access appropriate information only.

PRACTICAL

Supports onboarding, policies, processes and knowledge.

YOUR SCHOOL DATA

Policies · Curriculum · Handbooks
Procedures · Internal Documents

PRIVATE AI KNOWLEDGE ASSISTANT

Teachers · Leaders · HR
Administration · Operations

Imagine an AI assistant that understands your school.

FLEXIBLE WAYS TO WORK TOGETHER

Start where your school
needs us most.

Executive Briefing

90-minute leadership session on AI, education and institutional implications.

Readiness Assessment

Current-state analysis, executive report and recommendations.

Panache AI Academy

Structured professional learning for educators and leaders.

Innovation Pilot

8–12 week controlled implementation with selected teams.

Strategic Advisory

Ongoing AI, EdTech and digital transformation support.

Private AI Solution

Design of a secure institutional AI knowledge environment.

Every engagement is tailored to the institution's needs, size and strategic priorities.

Education Expertise Meets Technology Strategy.

EDUCATION FIRST

Solutions grounded in teaching, learning and school realities.

INTERNATIONAL PERSPECTIVE

Experience across international education environments.

PERSONALISED APPROACH

No generic transformation packages.

END-TO-END SUPPORT

From diagnosis and strategy to implementation and professional learning.

We don't bring technology into schools.
We help schools decide how technology belongs in education.

START A CONVERSATION

Every School Is Different.

Your priorities, culture, people and context should shape your transformation journey.

What is the biggest education or
technology challenge
your institution is trying to solve
today?
